# Extraordinary in every way.

The new T-Cross is as versatile as the people for whom it was built – individuals who refuse to be pigeonholed. Because there's much more to them. They want more – and they get more. Get ready to be captivated by a car that doesn't fit in any box and is unique in every aspect. Just like you.

# Making the everyday extraordinary.

There's nothing standard about it. Leave convention behind with the new T-Cross Style – from the first time you set eyes on it, its exterior features tell you that. You'll find it hard to look away.

Fuel consumption in litres/100 km: 5.1–4.9 (combined), CO<sub>2</sub> emissions in g/km: 115–111 (combined), efficiency class: B

# Exterior & design

01

02

03

**01** You decide which wheels will best enhance the look of your new T-Cross. With the wide range on offer, you'll be spoilt for choice. The **18-inch Nevada alloy wheels** are just one option. **OE**

**02** Be a guiding light: the **LED headlights** in the new T-Cross make quite an impression thanks to their striking design; the dynamic hockey-stick shape of the integrated LED daytime running light is especially distinctive. Meanwhile, the o-shaped chrome element in the bumper that surrounds the cornering light is guaranteed to draw attention. **ST OE**

**03** Embrace the modern design of your new T-Cross. The view from behind is just as arresting – the **rear** has striking reflector strips and LED tail lights, and is guaranteed to turn heads wherever you go. **S**

# Show your colours.

Go for the optional Energetic Orange design package to make your new T-Cross even more striking. It's the perfect option for those who make no compromise when it comes to individuality or character. Be bold! It can be grey out there on the road – but you don't have to be. **OE**

# The Energetic Orange design package

01 The 18-inch Köln alloy wheels in Hot Orange, for the new T-Cross Style, provide a splash of colour that simply cannot be ignored. **OE**

02 The seat upholstery for the central and inner panels is finished in Orange and Ceramique for a modern, cool aesthetic. The colours certainly enhance the look of the sports comfort seats. **OE**

03 A real eye-catcher: The Transition décor with 3D design in Energetic Orange and Grey is an arresting design highlight. **OE**

# Design packages

**01** The versatility of the new T-Cross is unmatched: With its **optional** Black, Energetic Orange and Bamboo Garden Green **design packages** from the Life equipment line, you can give your vehicle an incomparable look and make it a real style icon. **OE**

**02** The power is in nature. If that's your motto, the optional **Bamboo Garden Green design package** is a great choice for you. The central and inner panels are a mix of Turquoise, Orange and Platinum Grey, and the décor in the 3D Transition design in high-gloss black and grey gives a natural feel. **OE**

**03** Do you love simple colours and a sporty style? Then the optional **Black design package** is the perfect fit for you: With interior accents in high-gloss black and grey décor, for example, every journey in your new T-Cross will leave a lasting impression. **OE**

01 The new T-Cross with the **Style equipment line** guarantees exceptional comfort, for example with the front sports comfort seats that provide optimum support for your back. The heated seats ensure that you'll be comfortable even on cold days. And when you need

to cool down, you can use the built-in Climatronic air conditioning unit. Meanwhile, the ambient lighting creates exactly the right mood inside the vehicle. This is augmented by the Lizard décor with polished coverings in the central console. **ST**

# For those who refuse to conform.

When it comes to getting what you want, do you compromise?

It's not an issue with the new T-Cross Style, as this equipment line delivers a high level of comfort and many visual highlights.

01

# All eyes will be on you.

With the new T-Cross in the Life equipment line you'll be turning heads everywhere you go. And that's no surprise, as it has many extras that are hard to ignore.

**01** The Life equipment line is designed to make you feel at home from the outset. The stylish **Pineapple inlays** contribute to a successful interior. Additional highlights make every car journey a pleasant experi-

ence: the air conditioning system, multifunction steering wheel, and Plus multifunction display, for example. **LF**

**02** Optional **lumbar supports** mean extraordinary comfort. These supports will take the strain off your back while you're driving, and foster an optimum

sitting position. So if you're on the road for longer periods, lumbar supports relieve tension in your back muscles while also supporting your spine. **OE**

# A real character for real characters.

Even in its basic configuration, the new T-Cross has a wide range of equipment that is anything but standard – just like its drivers.

**01** Be certain you're getting high quality. Many equipment features such as the adjustable rear seat bench, **Composition Colour radio** fitted as standard, and Lane Assist contribute to your comfort and safety. **S**

**02** If the worst happens, you can summon support via the integrated **eCall Emergency System**. In the event of an accident, your new T-Cross creates a connection with the local emergency services manually at the press of a button or automatically to provide important information to the emergency services within the system limits. **S**

01

# Mavericks will like this.

Sometimes you just need to make your escape – that's when you need a companion who's flexible, reliable and ready for almost any adventure. Meet the new T-Cross.

02

**01** Multiple features for added comfort. The front seats with their higher seating position make it easier for you to enter and exit the vehicle and ensure good all-round visibility. The fully **folding front passenger seat** also creates additional space if you need to transport long, compact objects on a regular basis. **LF ST**

**02** Analogue is dead. The **Active Info Display** with high-resolution screen can give you information that goes far beyond just the speed and tank fill level. **OE**

# Spontaneity is always a good move.

Life is full of surprises. That's good, because the new T-Cross is open to any idea or impulse. With its folding front passenger seat, sliding rear seat bench and boot capacity up to 455 litres, it is flexible enough to adapt to the plan as it develops. **LF** **ST**

**01** The practical **jumbo box** between the front seats is more than an adjustable armrest. It provides space for storing tissues, soft drinks cans and bottles, and much more. There are two USB ports on the rear of the jumbo box – convenient when passengers need to charge their devices. **LF** **ST**

**02** Whether you're putting shopping bags or suitcases in the back, the rear of the vehicle has all the space you need. And it's flexible too: the **sliding rear seat bench** can be moved as required. You can slide it all the way forward, fold it down to create a flat loading space or fold down only part of it. The choice is yours. **S**

# The smartphone meets the smart car.

The connectivity equipment in the new T-Cross means your smartphone will get along great with this car. With even more innovative extras built in, such as the Active Info Display, this vehicle will give you one thing above all else: the feeling that you're sitting in the right car. **OE**

# Connectivity

With your smartphone you can be online almost all the time. So why shouldn't your new T-Cross do that too? Car-Net Guide & Inform makes your everyday life a little easier and helps you arrive at your destination relaxed; you'll soon be wondering how you lived without the useful real-time information and handy functions. And with the Volkswagen Connect app, you'll always have an overview of key vehicle data for your new T-Cross. **OE**

**01** Better orientation, more up-to-date information: The **Car-Net Guide & Inform service package**<sup>1)</sup> is available with the Discover Media navigation system on request, and opens up new opportunities for you to benefit from using the internet on your Volkswagen journeys. Take advantage of data that simply could not be more up-to-date: if there is a traffic jam en route, or a road has cleared, the online system will tell you virtually in real time. What's especially convenient is that your route will be automatically changed to account for the situation. Car-Net can identify rest stops along the way, and you can use its online POI search tool to find quality restaurants and other highlights en route. It also displays the number of available parking spaces in participating car parks, and a list of petrol stations with current price information. What's more, the online destination import feature enables you to send navigation destinations straight to your vehicle from your office, home or while in transit. **OE**

**02** The smart connection to your new T-Cross: **Volkswagen Connect.** The free Volkswagen Connect app, combined with the DataPlug<sup>2)</sup>, presents key vehicle data – providing a comprehensive overview of your vehicle on your smartphone. A simple Bluetooth connection and installation of Volkswagen Connect will transform your new T-Cross into a connected car in no time, while also offering you a perfect supplementary function for Car-Net Guide & Inform. You can use your smartphone at any time to view information such as your mileage (km) and upcoming service intervals, as well as current warning messages and recommended actions. In the event of a breakdown, you can use the app to directly contact Volkswagen's 24-hour hotline in the relevant country, or the closest Volkswagen service partner. Take a look at your most recent trips in your Digital Logbook, and check your costs per journey using the tank monitor. And for your daily journeys, you can win points and trophies in a game format for even more driving pleasure. Take a look at [vwconnect.com](http://vwconnect.com) for even more Volkswagen Connect® functions. **OE**

**03** Expand your cockpit – **Car-Net App Connect** transfers your smartphone apps to your Infotainment system's touchscreen: Apple CarPlay™, Android Auto™ by Google and MirrorLink® – all three innovative technologies are available inside your vehicle, enabling you to take advantage of a range of useful and entertaining features. **OE**

**05** The **LTE CarStick** functions as a hotspot for unlimited internet access<sup>3)</sup> in your Volkswagen. In conjunction with the Discover Media navigation function, it creates an online connection in the vehicle. As it has its own SIM card slot (SIM card not included), the LTE CarStick facilitates use of the Wi-Fi hotspot and mobile online services from Car-Net Guide & Inform, independently of a smartphone connection. **OE**

1) To use Car-Net Guide & Inform, you must conclude a separate agreement online with Volkswagen AG. After taking possession of the vehicle, the customer has 90 days to register at [www.volkswagen.com/car-net](http://www.volkswagen.com/car-net). The duration of the free period is shortened if you register later. Use of the mobile online services (Car-Net Guide & Inform) is possible only with the Discover Media optional equipment. You will also require an internet-enabled mobile device (e.g. a smartphone) that can serve as a mobile Wi-Fi hotspot. As an alternative, the optional CarStick LTE can also be used together with the Discover Media navigation system, to easily provide an internet connection for your navigation device and a mobile Wi-Fi hotspot in the vehicle. Car-Net services are only available in conjunction with an existing mobile phone contract between you and your mobile phone company or with a contract concluded separately for this purpose and only where network coverage is available. Depending on your mobile phone tariff, receiving data from the internet may incur additional charges, particularly if you are using the phone abroad (e.g. roaming charges). Due to the amount of data used when accessing Car-Net services, we strongly recommend signing up to a flat-rate data plan with your mobile phone provider. Availability of Car-Net Guide and Inform may vary depending on the country in question. These services are available during the agreed contractual period and may be subject to amendment during the duration of the contract. For more information on Car-Net, go to [www.volkswagen.com/car-net](http://www.volkswagen.com/car-net) or contact your Volkswagen dealership. For information on mobile rates, contact your mobile provider.

2) The DataPlug is available from your Volkswagen dealer. Further information on app functions, FAQs and compatibility with models from model year 2008 at [vwconnect.com](http://vwconnect.com).  
3) Depending on your mobile phone tariff, receiving data from the internet may incur additional charges, particularly if you are using the phone abroad (e.g. roaming charges). Volkswagen Accessories recommends taking out a flat-rate data contract with your mobile network provider. Please consult the vehicle manual for further information regarding the use of mobile devices and Car-Net.

# Multimedia

06 The **Discover Media navigation system** for the Composition Media radio features a 20.3 cm (8-inch) TFT colour display, pre-installed map data for Europe, a touchscreen with proximity sensors and an MP3-, AAC- and WMA-compatible CD player and six loudspeakers. The system also includes two SD card slots, a USB port and a Bluetooth connection for mobile telephones. And with mobile online services from Car-Net, you can enjoy a fantastic connection, even when you're on the road. **OE**

07 The **Composition Media radio** includes a 20.3 cm (8-inch) TFT colour display, a touchscreen with proximity sensor and an MP3- and WMA-compatible CD player. The six loudspeakers complete the picture to create a multimedia experience. Furthermore, it also features an SD card slot, a USB port and a Bluetooth connection for mobile phones. **OE**

08 The **Composition Colour radio** features a 16.5 cm (6.5-inch) TFT colour display including a touchscreen and two loudspeakers, and it also includes an SD card slot. **S**

09 Do you need your music to be big on bass? The **beats sound system** from the audio specialists at BeatsAudio is designed to provide optimum sound in your new T-Cross, wherever you're sitting. The subwoofer<sup>1)</sup> produces solid, earth-shaking bass tones. All speakers are supported by an eight-channel amplifier with 300 watts output – plenty of power to get you and your passengers rocking. **OE**

1) If a subwoofer is installed, the boot has a capacity of 375 litres.

---

# Don't follow the crowd. Go your own way.

Prefer to tread your own path? The new T-Cross does, too. A host of driver assist systems – including the Lane Assist lane departure warning system – help you to address critical situations or avoid them altogether.

# Driver assist systems

Volkswagen is bringing together all its driver assist systems under the IQ.DRIVE label. A wide range of these innovative technologies are also used in the new T-Cross, to bring you even greater comfort and safety – and to make mobility even more relaxed.

02 The **Lane Assist lane departure warning system** can – from speeds of 60 km/h – detect whether the vehicle is unintentionally leaving its lane.<sup>1)</sup> The corrective steering assistance feature can prompt the driver to return their attention to the road.<sup>1), 2)</sup> **S**

03 When manoeuvring, the **Park Distance Control** system issues acoustic and visual warnings when it detects obstacles in front of or behind the vehicle.<sup>1)</sup> The integrated manoeuvre braking function can prevent collisions, or minimise their impact, by applying an emergency brake when reversing at speeds up to 10 km/h.<sup>1)</sup> You can activate the manoeuvre braking function at the touch of a button, enabling it to intervene when the vehicle is driving forward as well. **LF ST**

04 The **ACC adaptive cruise control** can help you to maintain a set top speed<sup>3)</sup> and fixed distance from the vehicle in front.<sup>1)</sup> **OE**

05 The **Rear View reversing camera** helps in reversing manoeuvres.<sup>1)</sup> The camera image on the radio display or navigation system shows the area behind the vehicle. **OE**

01 The **Blind Spot sensor** activates LEDs in the relevant exterior mirror to warn you if there is a vehicle in your blind spot.<sup>1)</sup> When reversing out of a parking space, the integrated Rear Traffic Alert system can monitor the area behind your vehicle and warn you of any traffic that crosses this space.<sup>1)</sup> **S**

# On the path to assisted driving: IQ.DRIVE from Volkswagen.

At Volkswagen, IQ.DRIVE stands for all our intelligent driver assist systems – everything that already exists in our company today; that we are developing for tomorrow; or that we want for the future. IQ.DRIVE is also synonymous with innovative ideas that have one clear focus: you. Specifically, your comfort and safety. These are areas in which our driver assist systems are already making a major contribution when it comes to system limits: **avoiding accidents, making life easier, and making mobility more relaxed.** Like the ACC Adaptive Cruise Control for example. It automatically adjusts your speed to match the vehicle ahead, while also maintaining the distance you have set. Or it brakes when needed. Even to a standstill. And everything is automatic. IQ.DRIVE doesn't just assist with driving. The Park Assist system, for example, supports you when looking for a suitable parking space – and of course when driving in and driving out of a parking space. IQ.DRIVE makes technical progress noticeable for you in many ways and at the same time gives you a good outlook on the future of mobility – where traffic jams and accidents

may be a thing of the past. For us, today's assisted driving is just another step on the road to autonomous driving tomorrow.

1) Within system limits.  
2) The driver should be prepared at all times to override the assist system. Drivers are not absolved of their responsibility to exhibit caution while driving the vehicle.  
3) Up to max. 210 km/h.

# R-Line Exterior

With the strikingly sporty features of the R-Line Exterior equipment, all eyes will be on you: from the dynamic front with black-grained radiator grille, bumpers in high-gloss black, and the black-grained wheel arch, to the athletic rear with R-Line-specific diffuser and bottom of the bumpers in the same colour as the car. The door trim in R-Styling and design strips with an R-Line logo on the side panels and front doors will attract even more attention. **OE**

**01** Whether it's with the 17-inch Sebring alloy wheels fitted as standard, or **18-inch Nevada alloy wheels**, you can make your new T-Cross really shine with an extensive choice of wheels. **OE**

# Volkswagen Accessories

01 Original accessories for a striking offroad appearance: the silver anodised aluminium **running boards** with anti-slip coating give the vehicle a distinctive, robust look. **OE**

02

03

04

02 The high-quality aluminium **sill panel trims** with T-Cross lettering protect the heavily used entrance area, and are an eye-catching feature in themselves. Each set consists of two trims for the front door sills.

**OE**

03 The **load sill protection** in stainless steel look is a visual highlight and protects the paintwork when loading and unloading. **OE**

04 The **sill panel trim** in a chrome look really draws the eye while also protecting the edge of the boot lid, and is simply adhered to the vehicle. **OE**

**05** The **premium bicycle carrier** is specially designed to transport two bicycles or e-bikes. Unhinging the carrier bracket automatically fixes the bicycle carrier onto the ball head and fastens it in place with ease. The carrier is particularly light and has an attractive minimal design. The removable spacers with anti-theft mechanism make the carrier extremely simple to use. The foot pedal allows the carrier to be folded down extra wide thanks to its large fold-down angle (90°). This means you can still access the luggage compartment with ease – even in vehicles with a large boot lid. When not in use, the bicycle carrier can be folded up completely and stowed in the luggage compartment to save space. The number plate holder with Volkswagen logo rounds off the Premium carrier. A transport bag to protect the carrier and a ramp for easy loading of heavy bicycles are available as options. **OE**

**06**

**07**

**08**

**09**

**06** The **bicycle carrier**, consisting of an aerodynamic plastic profile with a frame bracket, is lockable and has been city crash tested. It can be secured to the roof bars in an instant. **OE**

**07** The robust, lockable high-gloss black **roof box** is made from high-grade plastic and is easy to attach to the cross bars thanks to practical quick-release fasteners. It can be opened from either side and the extra-wide opening angle makes for easy loading and unloading. The roof boxes are available with a capacity of 340 or 460 litres. **OE**

**08** The **cross bars** form the basis for all roof attachments. They are robust, light and, above all, can be quickly attached to the roof railing. The anti-theft locks protect you from nasty surprises. **OE**

**09** Whether you want to tow a boat or caravan, or you need additional storage space, you will need the right equipment to do it. The **towing bracket** is available in a fixed or detachable version. It includes a 13-pin electrical installation kit to guarantee the electrical supply and thus the safe use of the trailer. **OE**

10 These carwash-resistant **wind deflectors** are manufactured from high-quality, recyclable acrylic glass. Optimal ventilation of the vehicle interior increases your driving comfort by improving the atmosphere inside the vehicle; enjoy the fresh air even when it is raining or snowing outside, and avoid the unpleasant build-up of heat on hot days by opening the windows slightly. **OE**

11 The transparent **load sill protection** film reliably protects the load sill against scratches when loading and unloading. **OE**

12 The perfectly fitting, non-slip **luggage compartment liner** reliably protects the luggage compartment from dirt and moisture. When not in use, it can be rolled up and easily stowed away to save space. Available for the new T-Cross with a variable and low luggage compartment floor. **OE**

13 Soft and gentle velour on one side and sturdy, anti-slip plastic nubs on the other: the custom-fit **reversible luggage compartment floor** for the luggage compartment ensures the perfect surface, no matter what you are transporting. Where necessary, a built-in protective cloth can be folded out over the loading edge to protect it when loading and unloading. **OE**

14 The high-quality **Premium textile floor mats** with T-Cross lettering are made from hard-wearing, thick-woven velour with an abrasion-proof coating on the rear side and white edging, to improve the look of the footwell and protect it from dirt. **OE**

15 The **Optimat textile floor mats** combine the features of rubber floor mats with the elegance of textile floor mats. The U-shaped edge of these tailor-made textile floor mats safely retains dirt and moisture. The integrated fixing system and anti-slip coating on the rear side prevent the mats from slipping. **OE**

16 The high-quality **sill panel trim films** protect the paint on the heavily used door sills and customise the vehicle's appearance. Colour: Black/Silver, set of 4 **OE**

17 Protect your own vehicle and the one behind from flying dirt, impacts from dangerous stones, and spray water, with these extremely durable **mud flaps** for the front and rear. **OE**

**18** The **G2-3 ISOFIT child seat** with removable backrest. Children weighing 15 to 36 kg (approx. 3 to 12 years) travel safely and comfortably thanks to height-adjustable sleep support and the individual adjustment of the height and incline of the seat. The seat is attached using the vehicle's ISOFIX anchor points. The child is secured in place using the three-point seat belt. Your local Volkswagen dealership will be happy to provide you with details on the full range of child seats. The easy-to-clean and non-slip seat cover with practical net pockets provides additional protection for delicate seats. **OE**

**19** Snacks at the right temperature for every occasion: the **cool & thermal box** can be simply connected via a socket in the car or at home. Two-litre bottles can be transported upright in the box, which has a capacity of approx. 25 litres. **OE**

**20–25** Practical, comfortable and flexible: the modular **travel and comfort system** is a true all-rounder, and helps to create the impression of a neat and tidy vehicle interior. In addition, important objects are easily reached or operated by passengers in the rear seat. The system consists of a **base module** which is fixed between the front seat headrest bars, and various additional modules available separately. These include, for example, a portable **clothes hanger**<sup>1)</sup>, a robust **bag hook**<sup>1)</sup>, swivelling tablet holders for models from various manufacturers, the new **action camera holder** and an adjustable **folding table with a cup holder**<sup>2)</sup>. With this system, breaks from driving are more enjoyable and comfortable than ever. One holder, so many options: all modules can be mounted onto the base module and interchanged as required. **OE**

**26** Charging devices in your car is finally both convenient and reliable! The **DUCI (double USB charger insert)** enables your mobile devices to be rapidly charged via two USB interfaces. Just insert the DUCI into the cigarette lighter, and it will integrate perfectly into your vehicle due to its special design. The white LEDs not only look good, but will also help you locate the USB connection quickly even in darkness. **OE**

**27** You can use the **premium USB cable** to conveniently connect your smartphone or other mobile devices to the Infotainment system of your vehicle. This means that functions such as App Connect are easily accessible – and your device will be charged at the same time. At 30 cm or 70 cm in length, the cables feature a high-quality fabric sleeve and chrome-plated metal plug with Volkswagen logo. Available with a Micro-USB, USB-C or Apple Lightning connection. **OE**

**28** The **LED reading light** can be used anywhere, is connected to the cigarette lighter and provides 20 lumens of light output with only one watt of power. The flexible gooseneck facilitates very easy positioning of the lamp. **OE**

**29** The **SmartphoneClaw universal smartphone holder** will keep your mobile device firmly in place. The holder, with its 3-point grip mechanism, is able to securely hold devices up to 158 x 78 x 7 mm (height, width, depth) in size. **OE**

- 1) Can only be used if there is no passenger on the rear seat bench position that is behind it.
- 2) Must be folded up during travel if a passenger is seated on the rear seat bench position that is behind it.

# Discover Volkswagen's automotive world.

**The Autostadt – a journey through the world of mobility.** Collecting your new car will be a memorable experience for you, your partner or your whole family at the Autostadt in Wolfsburg, the communication platform of the Volkswagen Group and its brands. Experience the many attractions in the 28-hectare park and lagoon landscape, and accept delivery of your new Volkswagen in person.

Take a trip through automotive history and track the development of the car by visiting the ZeitHaus Museum, which houses vehicles from over 60 different brands. Learn about Volkswagen's production processes at the AUTOWERK exhibition and find out about all developments in sustainability at LEVEL GREEN. Your kids will even have the chance to earn their very own driving "licence". Put your driving skills to the test on both of our exclusive off-road courses, or treat yourself to a little luxury and let yourself be spoiled by the service at The Ritz-Carlton in Wolfsburg, a five-star superior hotel. By the way: Sven Elverfeld, head chef at AQUA, has been awarded three stars by the world-renowned Michelin food guide for the tenth time in a row. When it is time for your vehicle delivery experience, your own personal adviser will guide you to your new vehicle. The advisor will give you your keys and explain all the details, which you will then be able to put into practice as you leave the CustomerCenter. Rounding off this short vacation is the drive home in your brand new Volkswagen. To make sure your visit is a truly unforgettable experience, there is a day planner available on the Autostadt website. Use it to research the many highlights of our automo-

tive theme park in advance and plan your trip free of hassle. Find out more at [www.autostadt.de/explore-the-autostadt](http://www.autostadt.de/explore-the-autostadt) or by calling the free<sup>1)</sup> hotline at **0800 – 288 678 238**. This puts you in touch with the staff in our CustomerCareCenter who will help you to organise the perfect day. Of course, you can also obtain all the necessary information from your Volkswagen dealer.

**Volkswagen Driving Experience.** Discover breathtaking landscapes or brush up on your driving skills in a training course with the Volkswagen Driving Experience tours. Find out more about the programme by calling: **+49 711 389 500 30** or visiting [www.volkswagen-driving-experience.com](http://www.volkswagen-driving-experience.com).

**Service guaranteed.** Help is at hand wherever you need it: there are around 2,000 Volkswagen dealers in Germany, all of whom offer a comprehensive range of vehicle services. Please visit us or contact us by phone free of charge<sup>1)</sup> on the Volkswagen Customer Care hotline **0800 – VOLKSWAGEN (0800 – 86 55 79 24 36)**.

**Quality guaranteed.** In addition to the statutory warranty, you receive a two-year Volkswagen guarantee<sup>2)</sup> for all new Volkswagen cars and, for the bodywork, a three-year guarantee against paint defects and a 12-year guarantee against corrosion perforation<sup>2)</sup>.

**Mobility guaranteed.** Breakdown service, replacement car or overnight accommodation in a hotel. If you have your Volkswagen serviced at the recommended intervals, you can enjoy the benefits of the LongLife mobility guarantee in Europe. The emergency hotline can be reached free of charge<sup>1)</sup> at **0800 – VW SERVICE (0800 – 8 97 37 84 23)**.

**Volkswagen Financial Services.** Anyone purchasing a new Volkswagen has high expectations. These apply to both the quality of their car and the financial services provider giving them comprehensive advice on all finance-related matters. Here, Volkswagen and Volkswagen Financial Services are a perfect combination: Volkswagen Financial Services has attractive offers specifically tailored to the needs of Volkswagen drivers. Take advantage of our expertise as a financial service provider of innovative mobility products and choose from our modern insurance products and related services. With Volkswagen, you'll never find yourself at a standstill on the road or when it comes to financial matters. Speak to your Volkswagen partner for a personalised financial services offer.

**Volkswagen Extended Warranty.** Opt for up to five years of warranty. There are nine types of extended warranty available across all model ranges from the up! to the Touareg; options vary in terms of total coverage period and mileage. For more detailed information, contact your Volkswagen dealership.

1) Only applies to national calls.  
2) All details of the Volkswagen guarantee and the Volkswagen paint and bodywork guarantee apply solely to vehicles of the Volkswagen brand in accordance with the current range of vehicles offered in the Federal Republic of Germany and which are issued together with the Germany Guarantee Conditions (for the German market) from Volkswagen AG.

The services offered on these pages apply only to the German market. Your Volkswagen dealership will be happy to provide you with details on the products available in your country.
