The Tiguan
Fuel consumption in litres/100 km: 7.8–4.7 (combined), CO₂ emissions in g/km: 180–123 (combined), efficiency classes: D–A.

Illustrations on the following pages include some optional extras at additional cost.
Making an impression. Not just at first glance.

Clear contours, sharp lines: with its bold design, the Tiguan makes its powerful presence known at all times. It’s a promising appearance that always lives up to its looks. Countless design features continue this style and feel into the vehicle interior. And, thanks to the optional Connectivity services, you’re always way ahead on the digital highway. With trail-blazing technology, numerous customisation options and a superior driving experience, the Tiguan helps you to achieve all your goals – be they off-road, on-road or online.
The highest of standards, not just in terms of design: with the Highline equipment line, the Tiguan teams top-quality design features, like the 18-inch “Kingston” alloy wheels or the standard radiator grille with two chrome strips, with assist systems and technology to ensure a safe and stress-free journey. The equipment features LED headlights with Active Lighting as well as ACC adaptive cruise control. And the level of comfort provided is just as revolutionary. The “Air Care Climatronic” with 3-zone temperature control and allergen filter enables you to create your own personal comfort climate.

Exclusive highlights: when combined with the optional Active Lighting System, the LED headlights are enhanced with four chrome strips on the radiator grille, highlighting the Tiguan Highline’s masculine front design.
Setting the tone: the Tiguan with the Highline equipment line cannot fail to impress with its high-quality design detailing. The silver roof rail, surrounding chrome strip and painted diffuser on the rear guarantee a lasting impression from every angle.

A powerful presence from nose to tail: the full LED tail light cluster improves the Tiguan’s visibility when driving by day or night and adds the perfect finishing touch to the body’s clear lines.
The Tiguan – Equipment Lines

When every seat is your favourite seat: the Tiguan’s vehicle interior in the Highline equipment line sets new standards. That’s because it can be adapted perfectly to meet your personal needs, thanks to features like individually adjustable seats, an air conditioning system with three different climate zones and ambient lighting. Embedded LED lights stylishly accentuate the door opening levers, decorative strips, sill panel trims and footwell. Their brightness can be adjusted to whichever level you’d like using the display for the Infotainment system.

It’s also the perfect spot to sit in winter – thanks to the top-quality de luxe front seats with seat heating. They come with height adjustment, lumbar support, drawers under the front seats and folding tables on the back. The rear seat bench with a centre armrest can be slid forwards and backwards while the rear backrests can be folded asymmetrically.

The “Composition Colour” radio system features a 16.5 cm (6.5 inch) TFT touchscreen colour display, 4 x 20 watts output and eight loudspeakers. It also includes an SD card slot.

A perfect fit for every passenger: thanks to the “Air Care Climatronic” with 3-zone temperature control and allergen filter, the driver, front passenger and rear passengers can adjust the temperature separately from everyone else in the vehicle. These settings can also be controlled from the second row of seats using the electronic control panel.
A relaxed arrival, as standard: with the Comfortline equipment package for the Tiguan, the journey becomes the destination. Equipped with a comprehensive range of driver assistance systems and unique setting options, it ensures comfortable driving with a feel-good factor. And thanks to the Park Distance Control at the front and rear, even parking can be relaxing. A whole host of other attractive exterior features await, like the optional LED headlights, the radiator grille with two chrome strips, the standard roof railings and the 17-inch “Tulsa” alloy wheels.

The front fog lights with static cornering light illuminate the turning area. When the steering wheel is turned or turn signals are activated, the light is switched on depending on the situation when approaching crossroads or intersections at speeds below 40 km/h.
The Tiguan – Equipment Lines

Whether you’re a driver or passenger – you are always in the spotlight. Thanks to ergonomic de luxe seats with lumbar support including folding tables with drink holders on the backrests, using the leather trim multifunction steering wheel, you can control the Infotainment system, the multifunction display and, optionally, your mobile phone without taking your hands off the wheel.

The colour multifunction display (MFD) is located in the driver’s direct field of vision. As such, you will have all key vehicle information in your sight at all times, so you can give your full attention to what’s happening on the road.

When it’s dark and you are travelling at speeds above 60 km/h, the “Light Assist” will switch on the main beams automatically. A camera on the interior rearview mirror detects other road users. The system identifies vehicles driving ahead and oncoming traffic and dims headlights automatically before they dazzle other drivers.

As soon as the Driver Alert system registers any deviation from the driver’s normal steering behaviour, it uses visual and acoustic signals to recommend the driver to take a break.*

*Within the system’s limits.

Trendline

The Tiguan does not follow trends, it sets them. With the Trendline equipment line, this begins with the sporty leather steering wheel and leather trim gear lever knob. A wide range of assistance systems and comfort features, such as “Lane Assist” and “Front Assist”, ensure relaxed and safe driving pleasure at all times. The Infotainment system with touchscreen rounds off these features. The Tiguan stays true to its nature with design features like the halogen headlights and radiator grill with two chrome strips.

[Images of the Tiguan with various equipment highlighted]

1. Stronger illumination, a bolder statement: with their striking design, the LED tail lights keep the new Tiguan’s appearance even brighter, by day and by night.

2. The Trendline equipment package is not just an impressive sight when driving, but also before entering and after exiting the vehicle – with the “Coming Home” and “Leaving Home” function for automatic headlight control. While on the road, the “Composition Color” radio system with SD card slot and eight loudspeakers guarantees top entertainment. And thanks to the wide range of seating positions, the vehicle interior can be effortlessly configured to meet your needs.

3. The 17-inch “Montana” alloy wheels add the perfect finishing touch to the Tiguan Trendline’s impressive appearance.

[Image of the Trendline Tiguan]

[Not shown] The Tiguan Trendline is equipped with 17-inch steel wheels and hub caps as standard.

[Not shown] At speeds above 65 km/h, the “Lane Assist” lane departure warning can detect whether the vehicle has left the marked lane by accident. The system helps to keep the vehicle in the right lane. The “Front Assist” area monitoring system with City Emergency Braking and Pedestrian Monitoring detects pedestrians as well as other vehicles and automatically warns the driver along with a full set of brakes, in the event of critical distances. If the system thinks that the vehicle will not be able to avoid a collision, it automatically applies the emergency brake. This not only protects you, but also other road users.

*Within the system’s limits.
The Tiguan – Off-road
Keeps on going.
In every direction.

The Tiguan’s bold design shows where your journey can take you: almost anywhere you want it to. The optional off-road package accentuates this both visually and functionally. And no matter where you’re headed – the high-performance engines and the 4MOTION all-wheel drive provide an array of driving profiles for ultimate control and maximum driving pleasure.

Design meets function: the front bumper increases the approach angle and visually accentuates the Tiguan’s character. A stunning entrance: the off-road package’s sill panel trim with “Offroad” lettering. Prepared for everything: the 4MOTION Active Control allows you to choose from four custom-designed driving modes for on-road and off-road driving and an array of different weather situations. 4MOTION Active Control is part of the 4MOTION all-wheel drive and also includes the XDS electronic differential lock.

Fuel consumption in litres/100 km: 7.8–4.7 (combined), CO₂ emissions in g/km: 180–123 (combined), efficiency classes: D–A.
You have no ties. But you’re still connected.

Feeling at home when out on the road – this is now possible thanks to the wide range of online services. These services come together in our Car-Net package and help to make your everyday life even easier, more convenient and more interesting. Thanks to the optional smartphone interface App-Connect, you can access these services and a select number of apps from your mobile phone. All these apps and services can then be operated using the handy option on the touchscreen for the Infotainment system.

Find out more at www.volkswagen.com/car-net.

1) Use of the mobile online services from Car-Net “Guide & Inform” is governed in a separate agreement concluded online with Volkswagen AG. To be able to use the services for the customer has 90 days to register at www.volkswagen.com/car-net. Availability of Car-Net “Guide & Inform” services may vary depending on the country in question. The services are available during the agreed contractual period and may be subject to amendments during the duration of the contract. To be able to use the Car-Net app free of charge, you need a smartphone with iOS or Android operating system and a SIM card with data option with an existing mobile phone contract between you and your mobile phone company or with a contract concluded separately for this purpose. Depending on your mobile phone tariff, sending or receiving data via the Internet may incur additional charges, particularly if you are using the phone abroad (e.g. roaming charges). Due to the amount of data from the Internet, the services may be subject to extra fees. For more information on Car-Net “Guide & Inform” services, visit www.volkswagen.com/car-net or contact your Volkswagen Dealer; contact your mobile phone company for information regarding the compatibility of current and new mobile phones at www.volkswagen.de/mobiltelefon.

2) Use of the mobile online services from Car-Net “Security & Service” is governed in a separate agreement concluded online with Volkswagen AG. To be able to use the services for the customer must register the vehicle on www.volkswagen.com/car-net within 90 days of receiving the vehicle. The Emergency Call service is activated from delivery without the need to register. Availability of Car-Net services may vary depending on the country in question. The Tiguan – Connectivity & Multimedia
Setting trends. And setting the tone.

Navigator, control centre, entertainment system – the radio and navigation systems in the Tiguan are truly multi-talented. As well as controlling various online services, you can also connect your mobile phone and GoPro® cameras to the system. A high-resolution touchscreen display permits intuitive operation of all functions, from the navigation system, apps and connectivity functions to advanced sound settings for the optional “DYNAUDIO Excite Surround” sound system.

The Tiguan optionally comes equipped with three USB ports¹⁾ to ensure that you can very conveniently connect external sources to the radio and navigation system. The two USB connections at the front can be used to connect chargeable mobile devices. A further USB connection with a charging function is located to connect and charge mobile devices. A further USB port and a mobile phone interface with Bluetooth function can also make your mobile phone and GoPro® cameras to the system. A high-resolution touchscreen display with colour display, proximity sensor and innovative gesture control for intuitive control. As a result, you can operate a whole range of menu options with a single gesture. The system also has a 23.4 cm (9.2 inch) glass-covered TFT touchscreen with colour display, installed map data for Europe, eight loudspeakers, a centre speaker, along with a subwoofer. Together with Dolby Pro Logic surround sound, this creates an incredible audio experience. The optional “DYNAUDIO Excite Surround” provides the ultimate listening experience from every seat. The 16-channel digital amplifier delivers up to 400 watts to 8 perfectly positioned and specially calibrated loudspeakers, a centre speaker, along with a subwoofer. Together with Dolby Pro Logic surround sound, this creates an incredible audio experience.

The “Composition Media” radio system includes a 16.5 cm (6.5 inch) glass-covered TFT touchscreen with colour display, installed map data for Europe, eight loudspeakers, FM radio reception and a DVD drive, which is particularly popular. This means you can experience a whole range of sources with just one button. The system also has a 20.3 cm (8 inch) TFT colour display, installed map data for Europe, a touchscreen with proximity sensors, an MP3 and WMA-enabled CD player, eight loudspeakers. Furthermore, the system also features 2 SD card slots, an SD card slot, an AUX-IN jack, a USB port along with a Bluetooth function for mobile phones. Other features include an SD card slot, an AUX-IN jack, a USB port and a mobile phone interface with Bluetooth function. The “Business” model has a phone module in the vehicle and can alternatively be equipped with a separate SIM card. The built-in Wi-Fi function also lets you establish an internet connection.

The quickest way to establish an internet connection is simply visit www.navigation.com, enter the model, model year and navigation function or “Discover Pro” radio navigation system data always up to date, and you will immediately get access to the navigation function and the latest radio data, The Tiguan – Connectivity & Multimedia.

1) Only in conjunction with the optional App-Connect function or the optional “Comfort” mobile phone interface. The Tiguan can alternatively be equipped with a separate SIM card. The built-in Wi-Fi function also lets you establish an internet connection.
2) The GoPro® camera is not included within the scope of delivery for the Tiguan and has to be ordered separately. The solution described above is compatible with the following versions: GoPro® Hero camera 3, 3+, 4. GoPro®, Hero, the GoPro® logo and the GoPro® Be a Hero logo are trademarks or registered trademarks of the respective owners belonging to GoPro®.
Good views. Whatever you are looking at.

Whether a starry sky or skyline – the spacious vehicle interior with its panoramic sliding/tilting roof provides a clear view from every seat, along with a unique interior ambience. The ergonomically designed cockpit together with the numerous assistance systems make every drive with the Tiguan as comfortable as possible – regardless of where the journey takes you.

01 The panoramic sliding/tilting roof features built-in LED lighting and creates a pleasant ambience inside the vehicle, while allowing you and your passengers to watch the clouds rolling by. The front section of the glass can be opened, tilted and closed electrically. And if the stars or big lights of the city aren't bright enough for you, the LED lights plunge the vehicle interior into a soft and cosy light.
At the heart of the ergonomically designed vehicle interior, you’ll find the new centre console which has been inclined towards the driver. It features a wide range of optimally accessible and intuitive controls for the Tiguan’s wide array of functions.

Remembers your preferences: the electric driver and front passenger seats with memory functions give you the chance to store individual seat settings for different people and access them at the touch of a button. The driver’s seat and exterior mirror settings are assigned to a vehicle key.

...
With “Easy Open”, you can guarantee a relaxing journey, even before you’ve actually set off. For instance, when loading heavy suitcases into the luggage compartment, you no longer need to set them down while you fumble for your keys – a brief movement of your foot beneath the vehicle rear is all that’s needed to open the electric tailgate automatically. And with electric closing function, it shuts at the press of a button as you move away from the vehicle.

SO

Parks trailers or caravans of up to 2.5 tonnes¹⁾ with ease. The “Trailer Assist”²⁾ trailer manoeuvring system helps you to manoeuvre the vehicle. In the Tiguan, all you need to do is pick the direction of travel and the system does the rest, taking you to your destination without the stress. All you have to do is operate the accelerator and the brake and keep your eyes open.

SO

For trailer loads up to a maximum trailer weight of 2.5 tonnes¹⁾: the manual swivelling towing bracket. If you don’t need it, you can stow it behind the bumper and fold it out again easily whenever you need it.

SO

Whether sporty and stiff or smoothly suspended: the adaptive chassis control DCC including driving profile selection facilitates individual damper and steering setup as well as allowing the two to be automatically adjusted to the driving situation. The system features NORMAL, SPORTS and COMFORT levels.

SO

Park as if by magic. The “Park Assist” park assist steering can detect bay and parallel parking spaces, take care of steering and even take over parking completely.²⁾ The system can also drive the vehicle back out of parallel parking spaces. All you have to do is operate the clutch, accelerator and brake. The built-in Park Distance Control uses acoustic and visual signals to tell you how far away you are from the nearest vehicle.

SO

Your co-pilot: the progressive steering matches the steering feel to the driving situation and, for instance, can aid manoeuvring when parking or driving around tight bends. You need fewer steering wheel rotations from lock to lock. The progressive steering ratio provides appliance steering characteristics for a wide range of situations – for enhanced comfort and improved control.

¹⁾ Depending on your engine-gearbox combination and equipment, the trailer load limit is between 1,600 and 2,500 kilograms.

²⁾ Within the system’s limits.
With its multifaceted intelligent technology and driver assistance systems, you are sure to feel safe and relaxed in the Tiguan, even in difficult or dangerous situations.

Thinks with you. And ahead of you.

Added comfort, even in a traffic jam. The Traffic Jam Assist enables semi-autonomous driving in traffic jams, helping to avoid typical accidents during heavy traffic.¹⁾ The system supports the driver keeping the vehicle in lane and automatically operates the accelerator and brake in conjunction with DSG.

The automatic ACC adaptive cruise control adapts the vehicle’s speed to that of the vehicle driving ahead up to the maximum speed selected²⁾ and maintains the distance set by the driver.¹⁾ It is also included in the driver assistance package. When combined with DSG, this package includes functions, such as the Emergency Assist system and Traffic Jam Assist.

Reveals what once was hidden: the “Side Assist” lane change assist’s rear radar sensors monitor the traffic behind the vehicle.¹⁾ Should the system’s radar detect a vehicle in the blind spot as the driver makes a planned lane change, or if vehicles are approaching quickly from behind, a warning signal is displayed in the exterior mirror. The Rear Traffic Alert also prevents unwanted encounters when parking: it monitors the area behind the vehicle while exiting a parking space and emits a warning should traffic cross its path.¹⁾ If there is a threat of a collision, the system also activates the emergency brake.

Provides safety: the Automatic Post-Collision Braking System triggers braking after a collision, with the aim of preventing secondary collisions.¹⁾ This system can save your life in the event of a medical emergency: Emergency Assist, the vehicle’s semi-automatic control detects when the driver is not fit to drive in a medical emergency.¹⁾ If the system notices that the driver has stopped steering or operating the brake and accelerator, it can keep the vehicle in lane and brake it until it comes to a stop.

1) Within the system’s limits.
2) Up to 210 km/h.

Thinks with you.
And ahead of you.
With its multifaceted intelligent technology and driver assistance systems, you are sure to feel safe and relaxed in the Tiguan, even in difficult or dangerous situations.

¹⁾ The specified values were obtained using the legally required measurement procedure. These figures refer to a particular vehicle and the driver operation, which is why they can differ from those obtained by the vehicle itself and its features, e.g., the settings of the air conditioning system, the driving speed, the road and traffic conditions, and the individual driving style. The values vary significantly. Additional equipment and accessories (add-on parts, tyres etc.) may alter relevant vehicle parameters such as weight, rolling resistance and aerodynamics, thus affecting consumption and driving performance values beyond the effects of weather and traffic conditions. The information regarding fuel consumption and CO₂ emissions depend on the selected tyre format and optional extras when ranges are specified.

²⁾ Efficiency classes evaluate vehicles on the basis of CO₂ emissions, taking into account the vehicle's unladen weight. Vehicles corresponding with the average are given a D rating. A+, A, B or C ratings are given to vehicles which are better than the present-day average and E, F or G to those below that average.

³⁾ The “Selective Catalytic Reduction” system contains an additional operating fluid which you or your Volkswagen Dealer must refill after a specific number of kilometres. Refer to the “Technical data” brochure for more detailed information.

The data given in performance and consumption applies to the use of sulphur-free 95 RON premium fuel, in accordance with DIN EN 228. The fuel grade 95 RON unleaded containing a maximum of 10% ethanol (E10) is permitted for use in principle. Detailed information on the compatibility of E10 fuels can be obtained from www.volkswagen.com or at www.dat.de/e10liste/e10vertraeglichkeit.
As a “Sports Utility Vehicle”, the Tiguan’s sporting ambitions are in its genes. To highlight its athleticism, the optional R-Line package offers an array of highlights for both the vehicle interior and exterior. The R-Line “Exterior” package is the ideal solution if you just want to attract admiring glances with a dynamic exterior appearance.

With their 5 double-spoke design in Grey Metallic, the 19-inch “Sebring” alloy wheels cut an impressive figure on the road.
Automotive sporting prowess starts on the road. The 20-inch “Suzuka” alloy wheels in Dark Graphite with a burnished finish radiate their unadulterated superiority. Final score: performance sport. The R-Line bumpers at the front and rear, the black gloss diffuser, and the rear spoiler give the Tiguan’s appearance a truly dynamic makeover. The black wheel sill extensions, the colour-keyed door trim elements and the design strips with the R-Line logo on the side panels and doors make it looks great from the side, too.
The Tiguan – R-Line

Start, finish line, victory – even before you've set off: the sporty interior details in the R-Line package exude an excitingly racy atmosphere. The leather-trim multifunction sports steering wheel with R-Line logo features bold handle recesses for dynamic driving and has a flat bottom. Just as eye-catching: the pedals and foot rest in brushed stainless steel with a tough non-slip covering, floor mats with Crystal Grey stitching and “Black Lead Grey” decorative black trim.

A warm-up programme for professionals: the “Vienna” leather equipment in black is available in conjunction with the top-quality de luxe heated seats at the front. The hallmark R-Line logo on the backrest guarantees a truly eye-catching look.

Start and finish line in one: the front aluminium sill panel trim with the R-Line logo.

Confident style and assured curves: the front R-Line top-quality de luxe front seats provide the ideal seating position, at the same time as exuding perfect sporting elegance. They feature “Race” fabric upholstery in Magnetite Grey and an R-Line logo on the backrest. The head restraints, outer seat bolsters and the middle seat come in a leather-look design, along with the centre armrest and door inserts.
The transparent load sill protection film and the stainless steel look load sill provide reliable protection from scratches when loading and unloading the luggage compartment. The practical film is quick to attach.

The sill panel trims made from high-quality aluminium and featuring Tiguan lettering not only protect the heavily used entrance area but also create a real eye-catching feature. Each set contains two strips for the front door sills.

The mudflaps are available for both the front and rear wheels, providing the underbody, side sills and doors with effective protection against heavy dirt. Moreover, dangerous stone chippings and water spray is reduced enormously.

The 17-inch “Corvara” alloy wheels in Brilliant Silver stand out with their bold 5-spoke design. Developed especially for use in winter conditions: the 17-inch “Merano” alloy wheel in Brilliant Silver with a 10-spoke design.

Volkswagen Accessories are available for the European market. Your local Volkswagen Dealer will be happy to provide you with details on the products available in your country.

Volkswagen Accessories equipment is created in cooperation with the development and design department in Wolfsburg to assure top quality and functionality. To make sure your Tiguan remains what it really is: 100 % Tiguan.

103 You can accentuate the powerful design of the rear and with perfectly coordinated accessories for the Tiguan: like the aerodynamic roof spoiler and chrome look protective strip for the rear lid, which is as visually appealing as it is practical. Steps built into the side panels highlight your Tiguan's off-road look, while also making it easier to get in and out and load the roof. The steps are manufactured from silver-anodised aluminium with a non-slip design and are closed on the sides with black plastic end caps. Fancy upgrading your SUV look even more? Why not add the designer trim for the front apron to make sure your vehicle really stands out from the crowd.

105 The all-weather, side sills and doors with effective protection against heavy dirt. Moreover, dangerous stone chippings and water spray is reduced enormously.

106 The 17-inch “Corvara” alloy wheels in Brilliant Silver stand out with their bold 5-spoke design. Developed especially for use in winter conditions: the 17-inch “Merano” alloy wheel in Brilliant Silver with a 10-spoke design.

107 Volkswagen Accessories are available for the German market. Your local Volkswagen Dealer will be happy to provide you with details on the products available in your country.

Fuel consumption in litres/100 km: 7.8–4.7 (combined), CO₂ emissions in g/km: 180–123 (combined), efficiency classes: D–A.
The Tiguan – Volkswagen Accessories

The supporting rods form the basis for all of the roof attachments. They are robust yet light and, above all, they can be quickly attached to the roof rail. The anti-theft locking equipment protects you from any nasty surprises.

The robust, lockable roof box is made of high-grade plastic and is easy to attach to the supporting rods, thanks to its practical quick-release fasteners. It can be opened from the driver’s or front passenger’s side and the extra-wide opening angle makes for easy loading and unloading. The roof boxes are available with a capacity of 340 or 460 litres.

The “Comfort” ski and snowboard holder enables you to transport up to six pairs of skis or four snowboards safely and conveniently. The simple system is made of anodised aluminium and is really easy to load and unload, thanks to the handy pull-out function. And with its breed-opening buttons, you can even open it when wearing thick winter gloves. The holder is also lockable.

Whether you want to tow a boat or a caravan or just need additional storage space – if you want to transport a trailer, you need a towing bracket. Available in a fixed (see illustration) or mechanically folding design. The pre-installed 13-pin electrical installation kit guarantees the electrical supply and enables the safe operation of a trailer. It also supports the parking assistant system and trailer stabilisation.

Transport your bicycle safely and securely with the bicycle holder for the roof of your Tiguan. The frame and wheel rails are designed to make sure the bicycle is automatically held in the perfect position. The innovative torque limiting switch makes sure the bicycle frame is conveniently attached to the vehicle. The frame holder is filled with large, soft sections of padding to ensure an even distribution of pressure and to protect the bicycle frame. The bicycle holder features easy Clash Plus coating.

The folding Compact II bicycle carrier is the smallest, lightest and most compact in its class. It is easy to attach to the towing bracket thanks to a quick-release mechanism and has space for two bicycles. Thanks to its practical folding mechanism, the luggage compartment is still easy to access. With an anti-theft mechanism and weighing just 13 kg, potential thieves will have heavy heart, but you will make light work of things. It is also available for three bicycles. A loading ramp is also available for easy loading.

Whether you want to tow a boat or a caravan or just need additional storage space – if you want to transport a trailer, you need a towing bracket. Available in a fixed (see illustration) or mechanically folding design. The pre-installed 13-pin electrical installation kit guarantees the electrical supply and enables the safe operation of a trailer. It also supports the parking assistant system and trailer stabilisation.

Transport your bicycle safely and securely with the bicycle holder for the roof of your Tiguan. The frame and wheel rails are designed to make sure the bicycle is automatically held in the perfect position. The innovative torque limiting switch makes sure the bicycle frame is conveniently attached to the vehicle. The frame holder is filled with large, soft sections of padding to ensure an even distribution of pressure and to protect the bicycle frame. The bicycle holder features easy Clash Plus coating.

The robust, lockable roof box is made of high-grade plastic and is easy to attach to the supporting rods, thanks to its practical quick-release fasteners. It can be opened from the driver’s or front passenger’s side and the extra-wide opening angle makes for easy loading and unloading. The roof boxes are available with a capacity of 340 or 460 litres.

The “Comfort” ski and snowboard holder enables you to transport up to six pairs of skis or four snowboards safely and conveniently. The simple system is made of anodised aluminium and is really easy to load and unload, thanks to the handy pull-out function. And with its breed-opening buttons, you can even open it when wearing thick winter gloves. The holder is also lockable.

16. Soft and gentle velour on one side and sturdy, anti-slip plastic nubs on the other: the perfectly fitting, reversible luggage compartment mat has the right surface for transporting all sensitive, dirty or damp goods. An integrated, fold-out protective cloth protects the load sill when loading and unloading.

17. The tear-resistant luggage net is ideal for all of those small and medium-sized items you prefer to keep stored safely away. It is secured to the standard fastening rings in the luggage compartment.*

18. The high-quality “Premium” textile floor mats with Tiguan lettering combine the features of rubber floor mats with the elegance of textile floor mats. The U-shaped edge of these tailor-made textile floor mats safely retains dirt and moisture.

19. The luggage compartment tray with Tiguan lettering is light, flexible and tailor-made for the Tiguan. It can be opened or closed in seconds to help keep the luggage compartment clean and its diamond structure helps prevent items from rolling around the car. Available for the Tiguan with a variable and low luggage compartment floor.*

20. Soft and gentle velour on one side and sturdy, anti-slip plastic nubs on the other: the perfectly fitting, reversible luggage compartment mat has the right surface for transporting all sensitive, dirty or damp goods. An integrated, fold-out protective cloth protects the load sill when loading and unloading.

21. The tear-resistant luggage net is ideal for all of those small and medium-sized items you prefer to keep stored safely away. It is secured to the standard fastening rings in the luggage compartment.*

22. These non-slip, easy-to-fit pedal caps made of brushed stainless steel will amaze you with their top-quality design while the non-slip coating ensures a good grip. Available for manual and automatic gearboxes (DSG).

23. Keep your footwell clean all year round: the perfectly fitting and durable all-weather floor mat set with Tiguan lettering does not just keep dirt and dampness away, it also reduces smells and is 100% recyclable.

24. The robust black/silver sill panel trim film protects the paint on the front and rear door sills from scratches and damage. Precisely pre-cut, the film is simply adhered in place. Each set comprises four films for the front and rear door sills.*

25. The practical transparent sill panel trim film protects the rear door sills from scratches and damage when getting in and out. Precisely pre-cut, the film is simply adhered in place. Each set contains two films for the rear door sills.*

26. The high-quality “Premium” textile floor mats with Tiguan lettering combine the features of rubber floor mats with the elegance of textile floor mats. The U-shaped edge of these tailor-made textile floor mats safely retains dirt and moisture.

27. The perfectly fitting, non-slip luggage compartment liner reliably protects the luggage compartment against dirt and moisture. When not in use, it can be rolled up and stored easily in the space available for the Tiguan with variable and low luggage compartment floor.*

28. These non-slip, easy-to-fit pedal caps made of brushed stainless steel will amaze you with their top-quality design while the non-slip coating ensures a good grip. Available for manual and automatic gearboxes (DSG).*

29. Keep your footwell clean all year round: the perfectly fitting and durable all-weather floor mat set with Tiguan lettering does not just keep dirt and dampness away, it also reduces smells and is 100% recyclable.*

*Not for the 176 kW (240 bhp) TDI SCR 4MOTION.
A high level of safety for your little ones: the child seats are available in just the right size for every age group. They are also very comfortable and easy to handle, as all covers are easy to remove and washable at 30°C. Your Volkswagen Dealer would be happy to tell you more about the entire range. The easy-to-clean and non-slip seat cover provides additional protection for the sensitive seats and prevents wear and soiling.

Enjoy fresh air no matter what the weather and avoid the unpleasant build-up of heat on hot days. The low-maintenance, UV and carwash-resistant wind deflectors are manufactured from high-quality, recyclable acrylic glass and are easy to secure, thanks to their plug-in assembly system.

You no longer have to find a service area to enjoy your coffee break, because the mobile Espresso car set means you always have your own small coffee bar on board. Simply stop for a break, connect the machine to the 12 V socket in the vehicle interior and enjoy a freshly brewed espresso. The set includes two break-proof espresso cups, a serviette and 25 espresso pods along with an elegant and practical storage case for the set.

Plug in the USB stick and you’re away: working in conjunction with the “Discover Media” navigation function, the CarStick uses its own SIM card (not included in the scope of delivery) to transform your car into a wireless hotspot. This allows you to use the Internet on your smartphone any time you need, while keeping the associated costs under control. Depending on the vehicle and country in question, you can also use the Car-Net to connect to the Car-Net apps & services.

A narrow bag turns into a large sturdy box in just a few simple moves. The tear-resistant, dark blue folding box is waterproof and dirt-resistant. Material: 100 % polyester. Volume: 30 litres. Size: 32 x 27.5 x 5 cm (folded).

Snacks at the right temperature for every occasion: the cool & thermos box can be simply connected via the socket in the car or at home. Two-litre bottles can be transported upright in the box, which has a capacity of approx. 25 litres.

Practical, comfortable and flexible: the innovative, modular travel and comfort system is a true all-rounder and helps to create the impression of a tidy and ordered vehicle interior. In addition, important objects are within easy reach or easily operated by the passengers seated in the rear seat bench. The system consists of a basic module, which is secured between the front seat headrest bars, and various available additional modules. They include, for example, a portable clothes hanger, a collection box, ventilating tablet holders for models from various manufacturers or an adjustable folding table with a cup holder. Each holder, to many options: all modules can be secured onto the base holder and swapped as required.

Snacks at the right temperature for every occasion: the cool & thermos box can be simply connected via the socket in the car or at home. Two-litre bottles can be transported upright in the box, which has a capacity of approx. 25 litres.
**Volkswagen Lifestyle**

**01** Time for Volkswagen Design: these Volkswagen watches for men and women are manufactured using a three-piece stainless steel case. They are equipped with a reliable quartz mechanism. Some of the stainless steel surfaces have been polished while others feature a brushed surface. The watch face is covered with mineral glass and screwed onto the base. Both watches have three hands, a date display and are water-proof up to 10 ATM.

**02** A classic piece that no wardrobe should be without: the hoody for men. The hood has a draw cord and features a contrasting inner lining with an all-over print of the Volkswagen logo. A Volkswagen logo print is located on the bottom of the pocket.

**03** The best way to see and be seen in sunny weather: with these chic sunglasses from the Volkswagen Collection. One pair has a black metal frame while the others are made from titanium and feature a stylish aviator style. Both pairs are 100% UV protected and are delivered in a protective hard case.

**04** Light and extremely robust trolley case with ergonomic handles, locking aluminium rods and four twin quiet-running castors for optimum rolling. Can be locked thanks to the TSA combination lock. Interior equipment: two luggage straps, a luggage partition and a shoe or accessories pouch inside.

**05** The “Volkswagen” umbrella, jointly developed with Volkswagen Design, won’t leave you out in the rain. The black pocket umbrella can be opened and closed automatically. With its polyester canopy and teflon finish, it keeps you dry, while the plastic handle makes it comfortable to hold.

**06** Dark blue cap with a three-dimensional woven Volkswagen logo on the front. The peak and interior lining in taupe provide a contrast against the blue. The adjustable strap features an embossed Volkswagen logo on the clasp.

**07** The sports chic travel bag in silver-grey is ideal for a weekend away. Behind the wide opening in the main compartment, you’ll find a huge amount of hidden space, a further zip compartment and slots for your smartphone and tablet. The leather flap can be closed with a small strap, the supplied umbrella is also secured with four metal studs.

Further details on the complete range and prices are available from your Volkswagen Dealer or at shops.volkswagen.com.
