We make the future real.

The images throughout the catalogue show the new T-Roc Style or the new T-Roc Sport plus some optional extras.

First impressions count. Twice.

We all know that you only get one chance to make a first impression. The new T-Roc makes the most of this chance twice over. Regardless of whether you opt for the new T-Roc Sport or the new T-Roc Style: you're guaranteed to make a lasting impression.

A strong impression and expressive, too.

Sometimes it doesn't take long for a strong character to reveal itself. In the new T-Roc all it takes is one glance. The front design – equipped with fog lights and eye-catching ring-style LED daytime running lights – exudes self-confidence. In the new T-Roc Sport, the roof, A-pillars and exterior mirror housing – available either in Black or Red – can also provide a contrast to the body paintwork on request. And as every other detail shows: this CUV has the courage to forge new paths.

Exterior

01 Sporty and expressive throughout: the dynamic design of the **tail light clusters** ensure the new T-Roc makes a striking impact from the rear as well. In the new T-Roc Sport, the rear lights come in dark red, further enhancing its confident appearance. The tail light clusters are equipped with energy-saving LEDs to guarantee good visibility from day to night. **5P**

02 The unique **front design** for the new T-Roc Sport stands out straight away thanks to the LED headlights and LED ring-look daytime running lights. These take pride of place in the front bumper above the fog lights. Through the 19 inch "Suzuka" alloy wheels, you can catch a flash of the red brake callipers. They show the world that there is a lot of driving pleasure to be had in the new T-Roc Sport; it's just waiting to be set free. **5O**

Causes a sensation. At the touch of a button.

With its bold exterior, the new T-Roc automatically turns heads – and can also get your passengers looking to the skies upon request. At the touch of a button, the retractable panoramic sliding roof opens up a brand new perspective.

01

Confidence comes from within.

Once you get behind the steering wheel in the new T-Roc Sport, one thing quickly becomes clear: its powerful appearance is more than justified. With ambient lighting, red trim stitching and high-quality chrome trims, it shows off its sporting elegance in the interior. What's more, it impresses with its spacious dimensions and countless optional connectivity functions and driver assist systems. Not even the strongest of characters can resist added comfort.

02

01|02 The interior in the new T-Roc Sport is both sporty and elegant with black headlining, dash pad and decorative trim in the door in Caribou Grey, Titanium Black door panels and red ambient lighting. This creates a pleasant ambience while also making it easier to find your way around in the dark. The de luxe sports seats for the driver and front passenger with "Gem" seat upholstery in Titanium Black/Ceramique and red contrasting stitching provide good side support and also relieve your back thanks to the optional manually adjustable lumbar supports. Meanwhile, the aluminium pedals lend the vehicle a motorsport style. **SP**

Self-confidence with style.

The new T-Roc always turns heads. One of its stand-out design elements is the unique C-pillar: a chrome gloss strip emphasises the vehicle's coupé-esque, elongated roof line. With the new T-Roc Style, you can make sure you get even more admiring glances. For instance, you can decide which colour should be used for the roof, A-pillar and exterior mirror caps to make sure your T-Roc Style really grabs the spotlight.

01

Exterior

02

03

01 The striking **rear design** in the new T-Roc Style includes the bold framed diffuser that gives the vehicle a bold look. In contrast to the diffuser, there are the chrome-plated trapezoidal panels, with both a dynamic and elegant look that highlights the urban feel. Sharp edges give the cross-over's rear a confident look, while the tail light cluster is incorporated into the horizontal lines. **ST**

02 Add a touch of character to your new T-Roc Style – by incorporating your personal style. With the **two-tone paintwork** you can opt for a second colour for the body, which is then used for the roof, the exterior mirror housing and the A-pillar. With Black, Pure White, Black Oak Brown Metallic or Flash Red you have a lot of options open to you. The lighting equipment in the new T-Roc Style makes it easier to see and be seen. By day, it impresses with small details, like the recessed daytime running lights in the front bumper. **ST**

03 The burnished-effect **17 inch "Mayfield" alloy wheels** provide the new T-Roc Style with a bold profile, while also giving you the freedom to show off your personal tastes. All you have to do is pick one of the four colour options for the wheels. When combined with the two-tone paintwork, there are plenty of ways to make sure the new T-Roc Style reflects your style. **ST**

Only changes if you want it to.

The interior of the new T-Roc Style continues where the exterior left off: with individuality right down to the last detail. Give your urge for customisation the freedom it deserves and make sure the new T-Roc Style follows just one thing: your personal style.

01 Take a seat on the comfortable de luxe seats with special two-tone "Tracks 4" upholstery and Turmeric Yellow stitching. Answer calls with ease while you're behind the wheel or play your favourite tunes from your smartphone thanks to the "Discover Media" Infotainment system including a Connectivity package. White ambient lighting with illuminated decorative trim, reading lights in the front and rear, and footwell lighting create a unique ambience while driving at night. What's more, the steering wheel and gear lever knob in the new T-Roc Style are covered in premium leather that feels great to touch. 50

Standard equipment in the T-Roc. 55 Standard in the T-Roc Sport. 5P Standard in the T-Roc Style. 5T Optional extra. 50
Fuel consumption in l/100 km: 6.8-5.0 (combined), CO₂ emissions in g/km: 155-116 (combined), efficiency classes: D-B.

02-04 Decide for yourself which colour you want for the **dash pad** – the design panel on the dash panel: Black Oak Brown matt, Ravenna Blue matt, Energetic Orange matt or Turmeric Yellow matt. Your personal favourite will then be carried through to the side decals and the centre console trim. To complement this look, parts of the centre seat panels come in the colour you pick, providing an exciting contrast. **ST**

T-Roc

01 The new T-Roc combines the desire for something unusual with the level of comfort you are used to. The compact CUV is optionally available with the manually adjustable **“Air Care Climatronic” air conditioning system**. You’ll come to appreciate it in the hot summer heat of the city and in the dappled sunshine in the country. **SO**

02 An extra handy function when there are several drivers: the customisation in the **“Plus” multifunction display**. Thanks to this function, assistance system settings, the preferred driving profile and the alignment of the exterior mirrors can be linked to your vehicle key. As soon as you unlock your new T-Roc with your key, all of your personal settings are adjusted automatically. **S**

03 Comfortable and spacious, the new T-Roc offers you plenty of space to bring your personality to life. And its premium equipment will also inspire your fellow passengers. The **standard equipment** includes features such as de luxe seats in the front with “Basket” seat upholstery and countless storage options that blend seamlessly into the sporty design concept. The dash panel and decorative strips come in elegant Black Oak Brown Metallic. **S**

Always finds its way. Without following others.

You can always forge your own path – even when you're in your car.

The new T-Roc helps you to do so with innovative connectivity features and multimedia highlights, like the Active Info Display or Car-Net online services that enable you to customise journey data and map information any way you like. This gives you an even more personal driving experience geared solely to your needs.

Connectivity

The new T-Roc is a pioneer when it comes to design. In terms of technology, it also showcases its innovative side with a range of connectivity features. Whether you're charging your smartphone or want to connect with your vehicle, connecting your mobile devices is even easier in the new T-Roc.

01

02

01 With the optional **“Comfort” mobile phone interface** and inductive charging function, you can charge your mobile phone without any wires. You also have access to an extra USB transmission and charging port in the storage compartment, enabling you to charge devices like tablets. And thanks to the inductive connection to the external aerial, making calls from your car has never been easier or enjoyed such good call quality as in the new T-Roc. It doesn't just sound good, it is also incredibly practical. **SO**

02 Good to know that someone's there: With **Car-Net “Security & Service”** you can contact the Volkswagen Emergency Call Centre simply by pressing the SOS switch.^{1),2)} This establishes a voice connection to the call operator, who provides you with personal advice until help arrives. At the same time, relevant data is sent to the Call Centre so that assistance can be provided quickly and effectively. In the event of severe accidents where the airbags are triggered, assistance is called automatically.

SO

03

04

03 With **Car-Net App-Connect^{2),3)}** you can add smartphone apps like Spotify™ to the touchscreen for your Infotainment system. MirrorLink®, Android Auto™ by Google and Apple CarPlay™ – all three systems are available. They can also process vehicle information in order to provide you with additional useful and entertaining functions. **SO**

04 With **Car-Net “Guide & Inform”²⁾** you can the most of up-to-date information from the Internet. You can therefore find out in real time if for example there is a traffic jam forming somewhere, or which car park has free spaces. You can then simply adapt your route and save yourself a lot of stress. Using the point of interest search, you can discover worthwhile destinations such as hotels, restaurants or the nearest and cheapest petrol stations. **SO**

1) The use of Car-Net “Security & Service” is governed in a separate agreement concluded online with Volkswagen AG. To be able to use Car-Net services for the full term, you must register your vehicle at www.volkswagen.com/car-net within 90 days of taking delivery of your vehicle. The Emergency Call service is activated from delivery without the need to register. Availability of Car-Net services may vary depending on the country in question. These services are available during the agreed contractual period and may be subject to amendments during the duration of the contract. To be able to use the Car-Net app free of charge, you need a smartphone with iOS or Android operating system and a SIM card with data option with an existing mobile phone contract between you and your mobile phone company or with a contract concluded separately for this purpose. Depending on your mobile phone tariff, sending or receiving data via the Internet may incur additional charges, particularly if you are using the phone abroad (e.g. roaming charges). For more information on Car-Net “Security & Service”, visit www.volkswagen.com/car-net or contact your Volkswagen Dealer; contact your mobile phone company for information on your mobile rates. Will be introduced at a later date. Your Volkswagen Dealer will be pleased to advise you.

2) Use of the mobile online services from Car-Net “Guide & Inform” is only possible with the optional extras “Discover Media” and “Discover Pro”. You will also require a mobile device (e.g. smartphone) that is capable of acting as a mobile wireless hotspot. Alternatively, you can also use the optional “Premium” mobile phone function, a mobile phone with Remote SIM Access Profile (rSAP) or a SIM card with call and data options. Car-Net “Guide & Inform” services are only available in conjunction with an existing mobile phone contract between you and your mobile phone company or with a contract concluded separately for this purpose and only where coverage is available. Depending on your mobile phone tariff, receiving data from the Internet may incur additional charges, particularly if you are using the phone abroad (e.g. roaming charges). Due to the amount of data needed when using Car-Net Guide & Inform services, we strongly recommend signing up to a data flat rate with your mobile phone provider! Use of Car-Net “Guide & Inform” is governed in a separate agreement concluded with Volkswagen AG. After receiving possession of the vehicle, the customer has 90 days to register at www.volkswagen.com/car-net. Availability of Car-Net “Guide & Inform” may vary depending on the country in question. The services are available during the agreed contractual period and may be subject to amendments. For more information on Car-Net “Guide & Inform”, visit www.volkswagen.com/car-net or contact your Volkswagen Dealer; contact your mobile phone company for information on your mobile rates.

3) Only available in conjunction with the “Composition Media” radio or the “Discover Media” navigation function. Please check to make sure that your device is compatible with App-Connect. The current version of App-Connect is supported by only very few mobile phones. Volkswagen is currently working closely with major smartphone manufacturers to make sure that a wider range of phones can support App-Connect. You can find up-to-date information regarding the compatibility of current and new mobile phones at www.volkswagen.com/car-net. The App-Connect apps are operated exclusively via your mobile phone. Please note the conditions of your contract with regard to the data and internet connection.

Multimedia

Multimedia to inspire. With the optional Active Info Display and “Discover Media” navigation function, you will not just arrive at your destination without any stress but also feeling entertained.

01

01 The optional “Discover Media” navigation function comes with a 20.3 cm (8 inch) colour touchscreen display. It also boasts six loudspeakers, FM radio, a CD drive that can also play music in MP3, AAC and WMA formats, two SD card slots, a USB ports and a Bluetooth connection for mobile phones. **S0**

02

02 Music is usually even more captivating when you can feel the bass. With the optional “beats” sound system six loudspeakers and a subwoofer guarantee fantastic sound and an impressive bass. All the speakers are fired by an 8-channel amplifier with 300 watts of power. All of this is controlled from your radio or navigation system, which welcomes you with a special “beats” start page. **S0**

03 The optional digital Active Info Display can show you more than just the standard speedometer: like detailed driving data, for instance, or graphic displays from your driver assistance systems. In conjunction with a navigation system, you can display a large version of the map directly in front of you – a convenient feature you’ll come to appreciate. **S0**

03

04

05

04 The optional “Composition Media” radio comes with six loudspeakers. It includes all the functions and connection options of the “Composition Colour”, plus a CD player, USB port and Bluetooth connection for mobile phones. Its 20.3 cm (8 inch) colour touchscreen also makes it especially convenient to use. **S0**

05 The “Composition Colour” radio has a 16.5 cm (6.5 inch) touch-sensitive colour screen that can also play music in both MP3 and WMA formats. It reads SD cards, receives FM radio and has four premium loudspeakers an AUX-IN media socket for connecting external audio sources. **S**

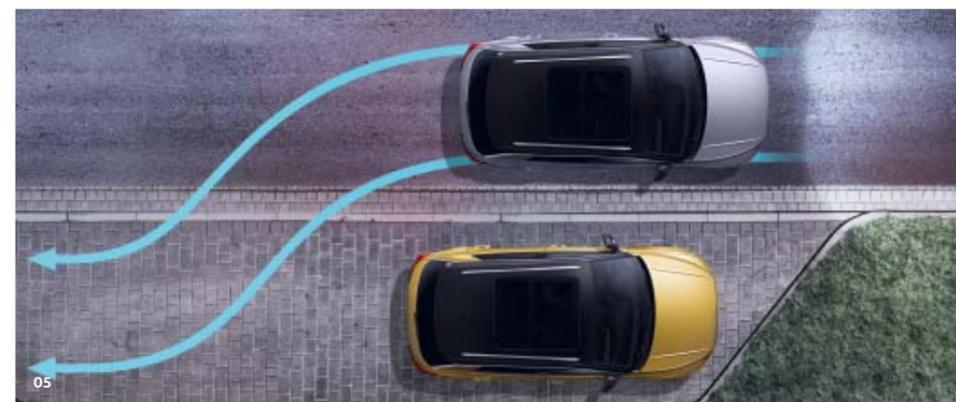

Sticks to its lane. But not to the status quo.

Confidence comes as standard in the new T-Roc. Not just because it comes equipped with an array of assistance systems. Whether you're in a traffic jam or city traffic, in the new T-Roc, you are equipped for almost any situation – even when you stray from the beaten path.

Driver assistance systems

01 The optional **proactive occupant protection system** can detect dangerous situations and take automatic action to improve the effect of the airbags, for instance. It can also tension the front seat belts within a fraction of a second.¹⁾ **S0**

02 The new T-Roc with optional **Traffic Jam Assist** follows the vehicle in front at speeds up to 60 km/h and controls the accelerator and brake. And it even makes sure you stay in lane. In the event of an emergency, the optional "Emergency Assist" can partially control the vehicle and tries – if the driver stops steering, braking and accelerating – to bring the new T-Roc to a controlled stop.¹⁾ **S0**

03 Monotonous journeys, narrow lanes and tiny rural roads – long car journeys can take a lot of concentration from the driver. Luckily, the new T-Roc is equipped with the **lane departure warning "Lane Assist"** as standard. This system can help to avoid accidents. The system uses a camera to scan the road markings and initiates corrective steering if you deviate from your lane.¹⁾ **S**

04 You can make driving more relaxed with the standard **"Front Assist" area monitoring system** including a Pedestrian Monitoring function. When a critical situation is detected, "Front Assist" issues a warning for the driver. If the danger is not averted, the system automatically initiates braking. This also improves the recognition of pedestrians who suddenly step out into the vehicle's path.¹⁾ **S**

05 The optional **Park Distance Control** simplifies parking in difficult parking spaces. It can use acoustic signals and graphic displays to warn you of obstacles.¹⁾ The optional **"Park Assist" park assist steering** with manoeuvre braking can even find you a suitable parking space. It then automatically steers you into bay and parallel parking spaces – and back out again¹⁾. All you have to do is operate the accelerator, clutch and brake – and keep your eyes open. **S0**

06 If a car is approaching you from the rear and cannot be seen in your exterior or rear view mirror, it is in the blind spot. The optional **Blind Spot sensor** can alert you to vehicles detected in your blind spot so that you don't change lanes. When you're reversing out of a parking space, the Rear Traffic Alert monitors the areas behind and to the side of your vehicle and warns you if there is traffic crossing your path.¹⁾ **S0**

07 The **electric boot lid** can be opened with ease from the driver's seat, or with the remote control key. You also adjust the opening height so that it doesn't hit low obstacles, for example. Once everything is stowed away, all you have to do is operate the button in the boot lid and it will close automatically. **S0**

¹⁾ Within the limits of the system.

Forging new paths. And new horizons.

Spontaneity is not a problem in the new T-Roc. Thanks to the 4MOTION Active Control, it is prepared to tackle unknown terrain. And with the driving profile selection function, you can adapt it to various conditions. So: don't shy away from new challenges.

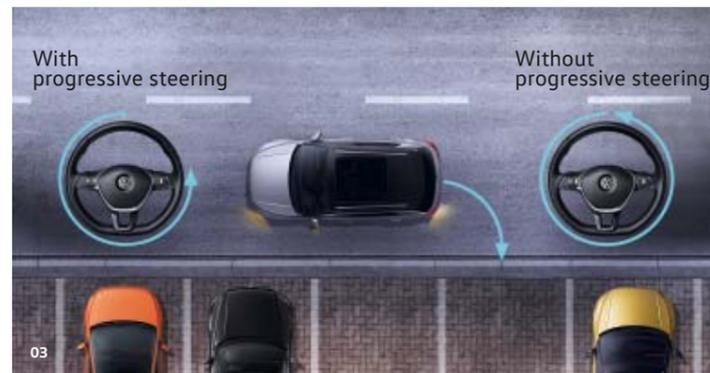

Engines, Suspension & Transmission

01 With the optional **driving profile selection** you can always opt for the perfect driving profile: Normal, Eco, Sport, Comfort or Individual. As a result, the engine and gearbox tuning and the response of certain assistance systems can be adjusted to the conditions. "Individual" mode lets you go more deeply into the settings and modify them to suit your style. **SO**

02 The terrain may change, but your driving enjoyment won't. If you opt to equip your new T-Roc with a 4MOTION drive, you activate driving profiles for a wide array of conditions – thanks to **4MOTION Active Control**. You can choose between the following options: Snow, Offroad and Offroad Individual. The system can be operated easily via a rotary/push switch. In the additional Onroad mode, you can choose Eco Mode or a dynamic Sport Mode. **SO**

03 The **progressive steering** in the new T-Roc Sport gives the driver better control when driving dynamically and ensures greater comfort in everyday motoring. For instance, the progressive steering ratio reduces steering work during parking and improves driving dynamics on winding roads with more direct handling. **SP SO**

1) The specified values were obtained using the legally required measurement procedure. These figures do not refer to a particular vehicle and do not constitute part of the offer but are purely for comparison purposes between the various types of vehicle. The fuel consumption and the CO₂ emissions of a vehicle not only depend on the efficient use of the fuel by the vehicle but are also influenced by driving behaviour and other non-technical factors (e.g. environmental conditions). Additional equipment and accessories (add-on parts, tyres etc.) may change relevant vehicle parameters such as weight, rolling resistance and aerodynamics, thus affecting consumption and driving performance values beyond the effects of weather and traffic conditions. Where ranges are given, the figures for fuel consumption and CO₂ emissions depend on the selected tyre format and optional extras at additional cost. Note in accordance with the current version of Directive 1999/94/EC: further information regarding official fuel consumption and the official, specific CO₂ emissions for new passenger vehicles can be found in the "Guidelines on fuel consumption, CO₂ emissions and electricity consumption of new cars" which is available free of charge from all points of sale and DAT Deutsche Automobil Treuhand GmbH, Hellmuth-Hirth-Straße 1, 73760 Ostfildern, Germany, or at www.dat.de.
2) Efficiency classes evaluate vehicles on the basis of CO₂ emissions, taking into account the vehicle's unladen weight. Vehicles corresponding with the average are given a D rating. A+, A, B or C ratings are given to vehicles which are better than the present-day average and E, F or G to those below that average.
3) The "Selective Catalytic Reduction" system contains an additional operating fluid which you or your Volkswagen dealer must refill after a specific number of kilometres. See the "Technology and Prices" brochure for more detailed information.

The details given on performance and consumption apply to the use of sulphur-free 95 RON premium fuel, in accordance with DIN EN 228. The fuel grade 95 RON unleaded containing a maximum of 10 % ethanol (E10) is permitted for use in principle. Detailed information on the compatibility of E10 fuels can be obtained from www.volkswagen.com or at www.dat.de/e10liste/e10vertraeglichkeit.

From 01/09/2017 certain new cars will be type-approved in accordance with the World Harmonised Light Vehicle Test Procedure, WLTP, a new and more realistic test procedure for measuring fuel consumption and CO₂ emissions. The WLTP will replace the current test procedure, the New European Driving Cycle (NEDC), from 01/09/2018. Due to the more realistic test conditions, in many cases the fuel consumption and CO₂ emission values measured in accordance with the WLTP will be higher than measured in accordance with the NEDC. More detailed information is available online at www.volkswagen.de/wltp or from your Volkswagen Dealer.

R-Line

The powerful colour-keyed bumpers, the dynamic air vents, the “R-Line” logo in the radiator grille: One glance at the front of the new T-Roc with the R-Line package is punch of pure athleticism. And if you fancy topping that, opt for the optional 19 inch “Suzuka” alloy wheels in Dark Graphite with a burnished finish.

These equipment packages are offered by Volkswagen R GmbH. Please refer to www.volkswagen.com for additional information. R-Line will be introduced at a later date. Your Volkswagen Dealer will be pleased to advise you.

Standard equipment in the T-Roc **LS** Standard in the T-Roc Sport **SP** Standard in the T-Roc Style **ST** Optional extra **SO**
Fuel consumption in l/100 km: 6.8-5.0 (combined), CO₂ emissions in g/km: 155-116 (combined), efficiency classes: D-B.

01 Round off the sporty look with the optional 18 inch "Sebring" alloy wheels in Grey Metallic and tyres in size 215/50 R 18. **SO**

02 The new T-Roc equipped with the R-Line package exudes confidence from every angle. The eye-catching colour-keyed door trim panels make sure your vehicle really stands out from the crowd. And when **viewed from the rear** the colour-keyed bumper and dark red LED tail light clusters stand out immediately. **SO**

02

03 The interior in the new T-Roc with the R-Line package scores points with its sporty, elegant and intricate design. In addition to the leather trim multifunction sports steering wheel with an "R-Line" logo and Crystal Grey stitching, plenty of design extras add an exclusive flair. These include the stylish gear lever gaiter in leather, stainless steel pedals, floor mats with Crystal Grey stitching and, last but not least, the "R-Line" logo on the homescreen. **SO**

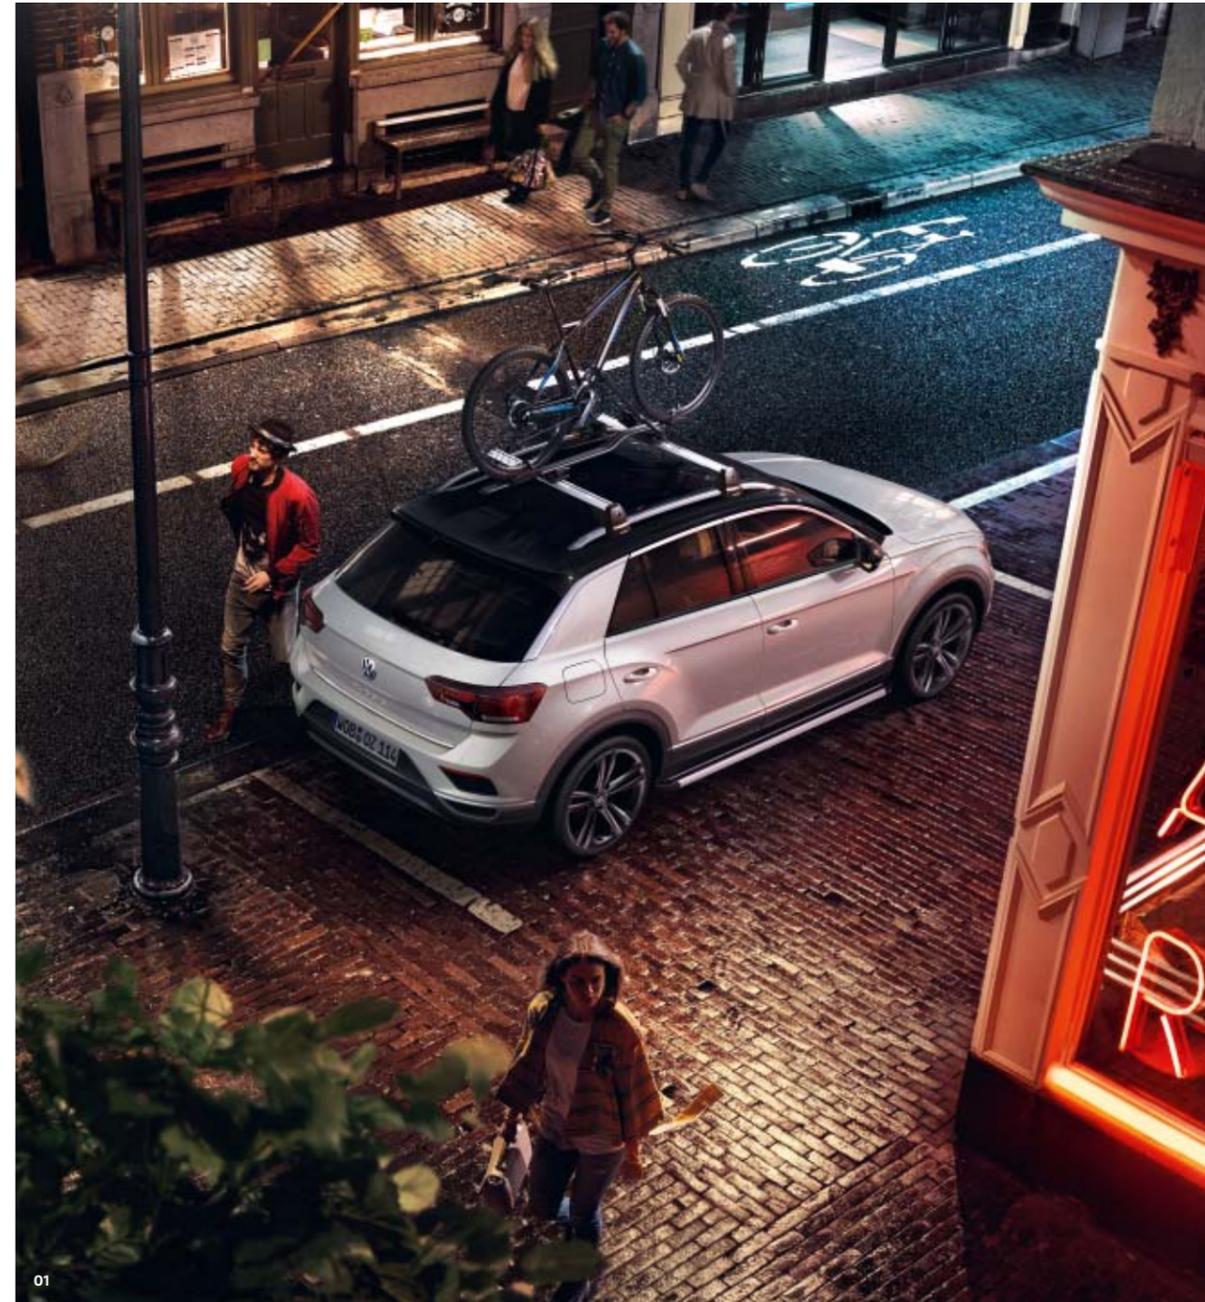

04 One design highlight in the R-Line package are the **sports de luxe seats** with "Carbon Flag" seat upholstery. An eye-catching touch is provided by the "San Remo" inner seat panels in micro fibre; on the backrests of the front seats, an embroidered "R-Line" logo stands out with pride. The head restraints, outer seat bolsters and the middle seat come in a leather-look design, along with the centre armrest and door inserts. The black headlining adds the perfect finishing touch to the unique atmosphere. **SO**

05 Please climb aboard: The **sill panel trim** with "R-Line" lettering is an invitation that is hard to resist. **SO**

Volkswagen Accessories

01|02 Genuine Accessories for a bold off-road appearance: The **running boards** with a non-slip surface made from silver anodised aluminium give the vehicle a distinctive, robust look. You can also give the rear of your new T-Roc with an even more powerful appearance with the chrome-look sill panel trim that is as attractive as it is practical. **50**

Standard equipment in the T-Roc **53** Standard in the T-Roc Sport **52** Standard in the T-Roc Style **51** Optional extra **50**
Fuel consumption in l/100 km: 6.8–5.0 (combined), CO₂ emissions in g/km: 155–116 (combined), efficiency classes: D–B.

03 The **sill panel trims** made from high-quality aluminium and featuring T-ROC lettering not only protect the heavily used entrance area but are also a real eye-catcher. Each set contains two stripes for the front door sills. **50**

Volkswagen Accessories are available for the German market. Your local Volkswagen Dealer will be happy to provide you with details on the products available in your country.

04 Whether you want to tow a boat, motorbike trailer or need additional storage space – if you want to transport a trailer, you need a **towing bracket**. Available in a fixed (see illustration) or swivelling design. The 13-pin electrical installation kit guarantees the electrical supply and enables the safe operation of a trailer. It also supports the park assist steering and trailer stabilisation. **SO**

05 The **bicycle carrier** is equipped with an aerodynamic plastic profile with a frame bracket can be locked and has been City Crash tested. It can be secured to the roof bars in just a few simple steps. **SO**

06 The **Premium bicycle carrier** is designed especially to transport two bicycles or e-bikes, and impresses with its innovative attachment mechanism. When the support bracket is opened, the bicycle carrier can be automatically fixed onto the ball head and is then very simple to attach. The carrier is extra light and has an attractive lighting design. The innovative, removable spacers with an anti-theft mechanism make the carrier particularly user-friendly. The foot pedal allows the carrier to be opened extra-wide, thanks to the large opening angle (90°). As a result, the luggage compartment remains easily accessible, even in vehicles with large boot lids. When not in use, the bicycle carrier can be folded completely together and stowed in the boot to save space. The Genuine number plate holder with Volkswagen lettering adds the perfect finishing touch to the Premium carrier. A transport bag for protecting the carrier and a loading ramp to make it easier to load heavy bicycles are also available as an option. **SO**

07 The **cross bars** form the basis for all of the roof attachments. They are robust yet light and, above all, they can be quickly attached to the roof rail. The anti-theft locking equipment protects you from any nasty surprises. **SO**

08 The robust, **lockable roof box** in high-gloss black is made of high-grade plastic and is easy to attach to the cross bars, thanks to its practical quick-release fasteners. It can be opened from either side and the extra-wide opening angle makes for easy loading and unloading. The roof boxes are available with a capacity of 340 or 460 litres. **SO**

09 The **“Comfort” ski and snowboard holder** enables you to transport up to six pairs of skis or four snowboards safely and conveniently. The simple system is made of anodised aluminium and is really easy to load and unload, thanks to the handy pull-out function. Thanks to its broad opening buttons, you can even open it when wearing thick winter gloves. The holder is also lockable. **SO**

10 The tear-resistant **luggage net** is ideal for all of those small and medium-sized items you prefer to keep stored safely away. It is secured to the standard fastening rings in the luggage compartment. **SO**

11 Soft and gentle velour on one side and sturdy, anti-slip plastic nubs on the other: the perfectly fitting, **reversible luggage compartment mat** has the right surface for all sensitive, dirty or damp goods. An integrated, fold-out protective cloth protects the load sill when loading and unloading. **SO**

12 The perfectly fitting, non-slip **luggage compartment liner** reliably protects the luggage compartment against dirt and moisture. When not in use, it can be rolled up and easily stowed away to save space. Available for the new T-Roc with variable and low luggage compartment floor. **SO**

13 The **luggage compartment tray** with T-ROC lettering is light, flexible and tailor-made for the new T-Roc. It has an approx. 4 cm raised rim to help keep the luggage compartment clean and its diamond structure stops items from sliding around the car. Available for the new T-Roc with variable and low luggage compartment floor. **SO**

14 Enjoy fresh air no matter what the weather and avoid the unpleasant build-up of heat on hot days. The low-maintenance, UV and carwash-resistant **wind deflectors** are manufactured from high-quality, recyclable and acrylic glass and are easy to secure thanks to their plug-in assembly system. Available for both front and rear. **SO**

15 The high quality **“Premium” textile floor mats** with T-ROC lettering made from hard-wearing, thick-woven velour with an abrasion-proof coating on the rear side and white edging do not simply improve the look of the footwell but also protect it from dirt. **SO**

16 The **“Optimat” textile floor mats** combine the features of rubber floor mats with the elegance of textile floor mats. The U-shaped edge of these tailor-made textile floor mats safely retains dirt and moisture. The integrated fixing system and the anti-slip coating on the rear side prevent the mats from slipping. With T-ROC lettering on the front mats. **SO**

17 These non-slip, easy-to-fit **pedal caps** made of brushed stainless steel will amaze you with their top-quality design while the non-slip coating ensures a good grip. Available for manual and DSG dual clutch gearboxes. **SO**

18 Keep your footwells clean all year round: The perfectly fitting and durable **all-weather floor mat set** with T-ROC embossing on the front mats does not just keep dirt and dampness away, but the mats are also odour-reduced and 100% recyclable. The front mats are attached to the vehicle floor using the integrated fastening system to prevent slipping. **SO**

19 The robust **silver/black sill panel trim film** protects the paint on the front and rear door sills against scratches and damage. Precisely pre-cut, the film is simply adhered in place. Each set comprises four films for the front and rear door sills. **SO**

20 Like an invisible protective guard, the precisely fitting **transparent protective film** can be applied to painted entry points. Scratches have no chance – and getting into the vehicle is that little bit more pleasant. **SO**

21–25 Practical, comfortable and flexible: the innovative, modular **travel and comfort system** is a true all-rounder and contributes to the impression of a tidy and ordered vehicle interior. In addition, important objects are within easy reach or easily operated by the passengers seated in the rear seat. The system consists of a **base module** which is fixed between the front seat headrest bars and various additional modules available separately. They include, for example, a **portable clothes hanger**, a robust **bag hook**, swivelling **tablet holders** for models from various manufacturers, the new **GoPro® holder** or an adjustable **folding table with a cup holder**. With this system, breaks from driving are more enjoyable and comfortable than ever. One base, so many options: all modules can be mounted onto the base module and interchanged as required. **SO**

26|27 A high level of safety for your little ones: the **child seats** are available in just the right size for every age group. They are also very comfortable and easy to handle, as all covers are easy to remove and washable at 30 °C. Your Volkswagen Dealer would be happy to tell you more about the entire range. The easy to clean and non-slip **seat cover** provides additional protection for the sensitive seats and prevents wear and soiling. It is made up of one seat cover for the backrest and one for the cushion. **SO**

28 If you haven't ordered the **voice control function** for your "Composition Media" radio or your "Discover Media" navigation function from the factory, you can have it activated at a later date. You can then simply control your phone, radio and navigation system with your voice. After activation, a red microphone symbol indicates that your instructions are being received. The "commands" you can use are clearly displayed on the screen. **SO**

29 You no longer have to find a service area to enjoy your coffee break, because the mobile "**Volkswagen Edition**" **espresso car set** means you always have your own small coffee bar on board. When you take a break, connect the machine to the 12-volt socket inside your vehicle and enjoy a freshly brewed espresso. The set includes two break-proof espresso cups, a serviette and 25 espresso pods, along with an elegant and practical storage case for the set. **SO**

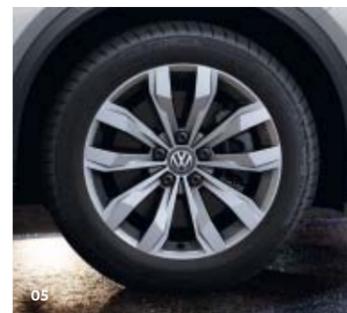

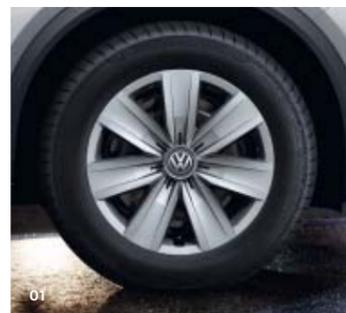

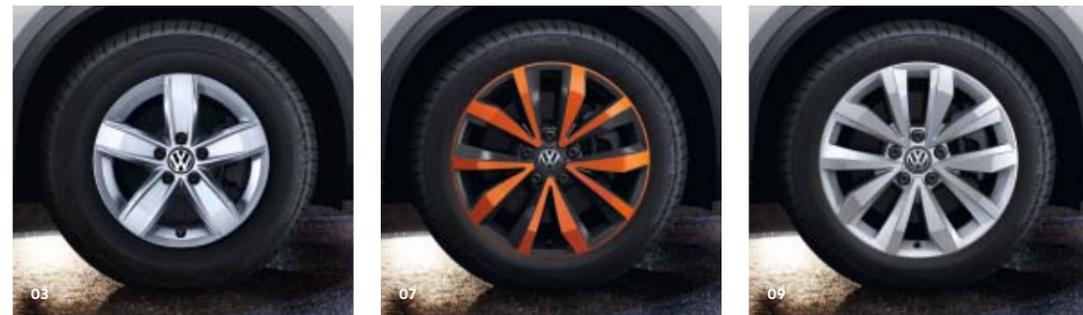

30 The Volkswagen **CarStick LTE** can be used to generate an internet connection for mobile online services (Volkswagen CarNet). This means that you can use the services without tethering to a smartphone. Furthermore, you can set up a WiFi hotspot in your vehicle in next to no time: Simply insert a suitable SIM card¹⁾ into the Volkswagen CarStick LTE, and connect it to the Discover Media navigation system. You can then connect any Wi-Fi enabled device to your own on-board network. Simply plug it into the vehicle's existing USB socket and away you go. **SO**

31 Snacks at the right temperature for every occasion: the **cool & thermos box** can be simply connected via the socket in the car or at home. Two-litre bottles can be transported upright in the box, which has a capacity of approx. 25 litres. **SO**

¹⁾ SIM card and mobile data use are not included and must be purchased separately from a suitable mobile phone provider. Data usage costs may vary depending on the provider.

The Autostadt in Wolfsburg – a journey to the world of mobility. Collecting your new car from the Autostadt will be a memorable experience for you. Take a trip through automotive history and track the development of the car by visiting the ZeitHaus Museum which houses vehicles from over 60 different brands. Learn about Volkswagen's production processes at the AUTOWERK exhibition or discover what's happening with regards to sustainability at LEVEL GREEN. Your kids even have the chance to get their very own driving licence! When the moment arrives for you to collect your vehicle, your personal adviser will hand over your keys, explaining the most important features in the vehicle. You'll then have the chance to test everything you've learnt on your way out of the Customer Center before starting your journey home. You can obtain full information from the free hotline **0800 – 288 67 82 38**, the apps for iPhone and Android phones or refer to www.autostadt.com.

Volkswagen Driving Experience. Discover breathtaking landscapes or brush up on your driving skills in a training course with the Volkswagen Driving Experience tours. Find out more about the programme by calling: **+49 711389 50030** or visiting www.volkswagen-driving-experience.com.

Service guaranteed. Help is at hand wherever you need it: there are around 2,400 Volkswagen Dealers in Germany, all of whom offer a comprehensive range of vehicle services. Please visit us or contact Volkswagen Customer Support by calling free of charge²⁾ on **0800 – VOLKSWAGEN (0800 – 8655 7924 36)**.

Quality guaranteed. In addition to the statutory warranty, you receive a two-year Volkswagen guarantee³⁾ for all new Volkswagen cars and, for the body, a three-year guarantee against paint defects and a twelve-year guarantee against rusting through.³⁾

Mobility guaranteed. Breakdown service, replacement car or overnight accommodation in a hotel. If you have your Volkswagen serviced at the recommended intervals, you can enjoy the benefits of the LongLife mobility guarantee in Europe. The free emergency hotline²⁾ can be reached at no charge on **0800 – VW SERVICE (0800 – 897 37 84 23)**.

Volkswagen Financial Services. Those who decide on a new Volkswagen expect high standards of quality from their car and from the financial services provider giving them comprehensive advice on all matters concerning the transaction. The up-to-date financing
